Hello Amy

Attach are the final PDFs for Room B. Please let me know if you have any questions.

Thank you.

Sincerely

Nanishka Albaladejo

Good Afternoon,

Here are the pdfs. I will send the hard copies to Ms. Hambrick today. The reporter from room A gave me hard copies of the written testimonies. What should I do with those?

Thank you,

Lauren

It is our privilege to work with you. Thank you for choosing us to cover all of your depositions worldwide!

Morning Lauren

Great news. Other than those few additional changes I found on page 2&3 EPA did not have any other changes. Please have the reporter make those changes noted in a previous email and then finalize the pdf. Once I receive the final pdf version we can begin finalizing payment for services rendered.

Please call me if you have any questions. See cell below. I am out of the office this week.

Thank you

Hi Lauren,

Thank you for getting this to me today. I did notice just 3-4 minor (see pages 2-3) things that were missed, but other than that it looked good. I'm waiting on EPA's final approval. Once received (and the 3-4 minor corrects are made) we move forward with the final product.

Thank you and have a great day.

Hi Lauren,

Thank you for the update. Super busy. Hopefully she can get to these changes soon; EPA had originally wanted transcripts by Mon Dec 17.

Thank you both for your hard work. Have a great day.

Hi Lauren

Attached is the US EPA approved transcript, Room A with one minor edit. Once the reporter makes this change, final pdfs can be prepared and emailed to me.

Please have the transcript completed by COB, Mon Dec 17, if possible.

Hardcopies can be mailed directly to EPA:

Hi Lauren,

Please thank the reporter for making the changes. I hate to keep bothering, but can you please have the reporter make the changes asked to the sessions in the index. Five sessions are listed we only "officially" had three (3), even though the panel members changed throughout the day. I made the changes RLSO in the index AND in the body. Please have them make this corrections, which will also better coincide with the second transcript, Room B.

If I can get this change done by 1pm, that would be great.

Thank you all again for your help.

Subject: Re: US EPA OIL AND NATURAL GAS PUBLIC HEARING

Hi Lauren/Connie,

Attach is a revised RLSO v2 of the transcript for hearing room A. Please note that there were still some suggested changes that were missed or not changed, and need to be corrected. For example, there are still places where "emission" is listed rather than "mission", which referencing to the EPA's mission statement. This need to be corrected!

There are a few other places where EPA/SC&A suggested a change and that change was not made. In some of these cases, in the attached document, I asked the reporter to make the change or "reply" to the comment, and note "written as stated. No change made," (Or something along those lines). Most likely, what the reporter wrote is what was stated, but EPA may ask why some changes were not done and I want to be able to tell them why, if they ask.

NOTE: I will need these corrects made, if possible, **NLT 9AM, Friday, December 14.**

Thank you for your attention and help in expediting this process.

Have a great day.

Sincerely,
Nanishka Albaladejo

Morning Lauren,

Please thank the reporter for getting this back to me so quickly. I will briefly review it and send it over to EPA for final approval.

Also attached is a red-line strike out version of transcript 2, Room B. Once again please ask the reporter to provide an short explanation in the Word doc. for any change that was not made (e.g., comment written as stated).

Please note that we provided your contact information, along with Jessica's from scheduling to others in the Agency. A few other hearings are being planned (not supported by SC&A) in the Denver area and EPA will need court reporters. --- So, just to give you a heads us 😊

Have a great day.

BTW I'm working from home today and can be reach via cell at 919-244-3761.

Sincerely
Nanishka Albaladejo

2 Additional comments:

Please note to the report to disregard question about ALEXIS ELLIOT. His name is spelled correctly in the transcript and (based on their written testimony) JANE EBENHOH should probably be Janet Ebenhoh.

Thank you

Morning Lauren,

Attached is a red-line strike-out word version of transcript 1, Room A. Please ask the reporter to make the suggested changes. For any change she is unable to make please have her, in the attached Word doc, insert a comment/response or respond to an existing comment, noting why the change was not done; i.e., commenter stated what is written. When possible please ask the reporter to refer to written comments for help. Note: EPA will review the revised transcript to check to see if their comments were incorporated.

If possible, we would like a revised transcript by COB wed., Dec 12 to ensure EPA has enough time to double check the incorporation of their comments & meet the Dec 17 deadline date.

Please call me if you have any questions. 919-244-3761 (cell)

Thank you.

Importance: High

Hi Lauren,

Wanted to let you know that EPA is currently reviewing the transcript for Room A by Linnea Busby. Please note that there are quite a few corrections needed (e.g., "roll" was written when it should have been "role"). We hope to get a red-line strike out version back to you NLT Mon, Dec 10.

Also, I previously noted that we received the written copies of testimonies submitted at the hearing; however, it appears, after further examination, that we only received testimonies and supporting documents from speakers in Room B (transcribe by Veronica A. Drechsel). Can you please reach out to Linnea and double check to see if anyone submitted written copies of their testimonies? If so, please have her scan and email or mail the copies to us. Note: she may want to refer to them when correcting the transcript.

Thank you for your help and have a great day.
